# Company History

New Century Displays, Inc. and its sister companies have produced wood products for over 40 years under the principle ownership of Tom Howell who acts as president of all companies which operate in our 170,000 square foot plant just outside of Kansas City, consuming over 6 million board feet of lumber per year.

Howell Mouldings, L.C. began as a custom frame shop in 1958. In those years there were few programs available so we made our own mouldings, finished, carved and gold leafed our frames. In 1966 we introduced the Do-It-Yourself (D.I.Y) frame concept to the hardware industry and a year later we brought our open frame to the craft market. Today we are capable of producing 22,000 frames per shift.

United Manufacturing, Inc. produces wooden crates for local businesses, serving both commercial and military orders. Also for the past 15 years, has produced wiring harnesses for military electric generators. United has been in business for over 100 years, 30 years under current ownership.

New Century Displays, Inc. was founded in late 1999 to market a unique golf display, which has one patent and others pending. Additional display cases for baseball, softball, soccer, football, volleyball, hockey and basketball have been added to the product mix.

Star Innovations, L.C., was purchased in late 2001 and produces and sells heat transfer equipment that makes photo sports balls. This patented process is sold under the trademarked name BallStars.

Trademarks used in the above companies include Little Gallery™, Classic Frames™, Pot Wraps™, Sur-Lock Pallets™, Wild About Racing™ and Ball-Stars™. The above companies also hold five U.S. Patents with several pending.

## Embroidery Requirements

In order for New Century Displays to produce your logo, we will need what is called a digitized "Stitch File" or a "Disk". These are the digitized stitch patterns of your logo. This file tells our computerized embroidery machines all the information needed to "Sew-out" your logo.

If a stitch file disk is furnished there will be no digitizing charge.

If a stitch file disk is not available there is a one-time charge to make a digitized disc per logo. Charges are **4" x 4" Logo - \$100.00 & 4" x 9" Logo - \$125.00**

There are two ways you can supply us with that information:

1. If you already have your logo "Digitized", make sure the file is in one of the following formats: Tajima (preferred), Melco Expanded, DOS Condensed, Happy, Brothers, Burudon, FMC, ZSK & Toyota.
2. If you do not have your logo already digitized, send us clean, undamaged camera-ready color artwork and New Century Displays will digitize your logo/design for the above mention prices. Art must be clean and require no touch-up. Because we have to scan your color artwork in at high resolution to be able to digitize; Yellow Page, newspaper ads, business cards, stationery, laser printed, faxed or photo copied artwork are not **acceptable as camera ready art**. Specific thread colors are also needed and are not usually provided with stitch files, please define thread colors using PMS numbers or send us a physical color sample. Example, a shirt or hat with a full color logo or a color print out on paper.

Please note that it may be necessary to reduce or enlarge the size of the logo design to properly fit in the stitch area. Plus or minus 10% is the maximum we can adjust a stitch file.
